SAX TW Standard (HHP) Anchor -

Please note that dimensions and weights are nominal and small variations are reserved.

New in 2010, this SAX TW M High Holding Power [HHP] anchors are welded high tensile steel plate material & they reduce weight by 25%.

Engineer placed the side skirts so to reinforce the anchor's flukes taking away strains on welds and with an improved stopperplate, welded between the two side plates, helps to improve contact with ships hull.

.Lloyd's Register, American Bureau of Shipping, Bureau Veritas, Germanischer Lloyd, RINA and Det Norkse Veritas have all given type approval.

We are official UK agents for SAX TW Anchors
